

Membership FAQ

What exactly is Hotels Etc. and how is it different then Travelocity and etc?

Hotels Etc. has been a global discount provider since 1996, helping members find the deepest discounts available in the market. We also assist companies with employee benefits, enhancing their existing memberships, or starting their own membership platform to increase retention rates or employee morale.

Our online booking engines are just as secure and easy to use as public engines like Travelocity & Expedia; the only difference is we deliver wholesale rates – these are deeply discounted net rates, and not retail rates publicly visible.
