

# Membership FAQ

## How can I make my reservation?

We offer the same exact booking procedures as the large public sites like expedia. Simply search our booking engines and make your reservation. Our system is just as secured as the bigger companies the only difference is our inventory is discounts by up to 70% off the public rates. If you are using our discount directory then you will be provided with instructions to redeem that particular discount which may include using a promo code, discount code, corporate code, presenting your membership card and etc.

We also offer access to our reservation department to book via phone. Numbers are located inside your members area.

Unique solution ID: #1006
