

Membership FAQ

Why would I pay for a membership card and not just search online for the discount?

The discounts that are available in our system are not available anywhere online. We typically dominate the public rates 9/10 times by up to 75% off. Hotels Etc. has very strict quality control to ensure that every discount provider in our system offers our members a discount not available to the public. We do not make companies pay us commissions instead we give you the best discount and we generate our profits from the membership fee.
